### **Hunt ID: NE-WDeer-All-Omaha-Grant-XXX-Guided**

**Our deer hunts take place in the famous Republican River valley near Guide Rock, NE. Our deer are corn fed Nebraska bruisers. You will notice that deer from Nebraska have much larger bodies than deer from other states. We have enormous populations on all of our properties. Our hunters report seeing 10-30 deer per trip!**

**Most importantly, we have an outstanding number of mature bucks. It is not unusual to see a 130"+ buck on every trip out. We try to maintain a 1:2 buck to doe ratio so, during the rut, if you see a doe, there will probably be a buck nearby.**

### **The Hunt**

**You will arrive on the evening before your first day of hunting, so we can go over stand locations and get a general feel for the area. We can also help you sight in your weapons**

**at this time. Before first light, we will have a hot breakfast ready for you. At this time you decide if you are going to pack a lunch and sit on stand all day, or hunt mornings and evenings and come in for lunch. If you choose to come in for lunch, we will eat and then get you back on stand about four hours before dark to hunt until sundown. At that time we will pick you up and bring you in for a**

**down home Nebraska meal. You can hunt until dark on your last day and leave in the morning. If you are not able to harvest a buck on the first 2 days of hunting, you then have the option of taking a doe. All hunts include a buck or a doe.**

### **Our Bucks**

**The largest buck taken on our property measured out at around 180" Larger bucks have been spotted, but no one has been lucky enough to take one of these monsters. The racks on our bucks are abnormally massive and tall. If you want an opportunity at one of our giants, book a hunt today!**
